Dear Harold;

From your last letter it seems that you are not feeling to well. I hope that your condition has improved. It could be too much strain of flying back and forth and doing at lot of sitting in planes and cars. I hope that by now you are easing off a little.

I don't know if you have seen any of the encloseures before. The one on the Oswald movies in the Times I know we have spoken of previously.

I am now reading Fensterwalds book. So far a good deal of it has been taken from the Senate Investigation report. He gives you credit a number of times. It seems to me that a lot of the current writings seem to slant toward Castro having Kennedy killed in retaliation for his attempts on Castro's life. This makes for a good red herring.

Please give my best to Lil and Jim and that you have a not too hot summer.

Best,

Paul
